Profile

I'm a 16-year-old **full-stack developer** from Vushtrri, Kosovo, passionate about building modern, responsive, and user-friendly web applications. I specialize in **frontend technologies** like HTML, CSS, Tailwind CSS, JavaScript, React, TypeScript, React Native, and Next.js, while actively learning **Python and Django** to grow my backend skills. I have hands-on experience working on real-world projects such as **Dollapi Im, Shujtiza, Pyet Doktorin, HireHub, etc.**, and I continue to level up my skills every day through practical project work.
